

Ottawa,
23rd Sept 1845

Dear Sir William,

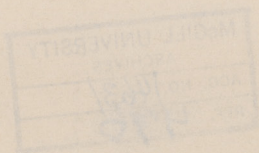

Your paper is now in the hands
of the printers, & I have told
them to send you the proofs.

I must thank you for your
kind appreciation of my new
book. I'm, above all other men,
wondering ever with my desire to
do good to our country.

I have hopes to see it
introduced into our high schools
throughout the Province. The
English Columbia has been the
first to go in this direction.
It is already placed in all
the Model Schools & School
Libraries of Ontario. I shall

look to you & others interested
in Education to help me
in the object I have at
heart

yours sincerely,
J. Bowring
