E.C.

My dear Sir William

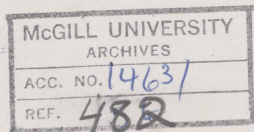

Thank you for your letter of the 9th inst. I have lately returned from a short stay with Mr. Hodder at Dunbride Wells prior to my busiest season. We've greatly enjoyed our visit and I am now hard at work getting out our new books.

I am sorry for any misunderstanding arising from our crossed letter, but I think all will come right. At the present moment the earlier part of the book is all in type as you will see from proof accompanying this,

but I think we can well "Shake hands with circumstances" and issue the Complete Series of Papers under the title of "Eden Lost Won: Early Bible Records and Natural Facts". I suggest this because the first title is excellent and it has already gone the rounds of the press; and with the second portion of the title the whole subject of the paper appears covered. I hope to send you the remainder speedily and shall feel obliged if you will return proofs for press as soon after you receive them as possible

With kind regards
Believe me

Yours sincerely
M. A. Hodder
