Sir. Wm Dawson,

Montreal,
Canada.

My dear Sir William,

In the Geological Magazine for Oct 1875
is a paper by you on Review of the evidence for the
animal nature of the Eozoön Canadiana to be
followed by another or continued. Can I ask you to
be so good as to send me the two papers as I
shall value them highly, also to place your sig-
nature of them. I always thought the Eozoön
was an animal and have not shaken my faith
in it. I discussed it in the Adirondack and
published it at that time, twenty five years back
in the Transactions of the N. Y. Society of
Natural History

Truly yours
John W. Edwards M.D.
