Sir William Dawson C.M.G.

Dear Sir,

You were kind enough
to write a few lines as a
"thought" for the New Year
for the Dawson College Magazine
last December. If not giving
you too much trouble might I
venture to ask you for the same
again this year. We desire to

begin our January issue with
such "Thoughts for 1896" from
two to ten lines in length &
shall be much honored by having
one from you.

I have been carrying round
for the last two months a letter
or introduction to you from Dr
Henderson which I have made
two efforts both unsuccessful
to present in person. I am

trying rather unsuccessfully to give
a course of lectures in the college
"Modern Discoveries as confirmatory
of the Bible" & I've felt that
you could probably give me a
little counsel & advice which
would materially help the work.

If you could name a
time at which I could call
on you conveniently to yourself I
should be very grateful.

I expect to be away till Tuesday
but after that my mornings
this month are free & nearly

all afternoons & I could wait on
you at your house if you could
send me a card or Telephone
when I might come.

I am,
yours respectfully,

C. Cameron Waller
