My Dear Sir,

John W. Dawson
I am asking my publishers to send you not only the December number of the "King's Own" but also our preceding volume as well as a copy of my book recently published on Inspiration. In my articles on Science and the Bible I have been very greatly helped by your "Acraya". That is a book for which I have felt grateful to God. Your other works have also been a great boon to the Christian church in this day of need.

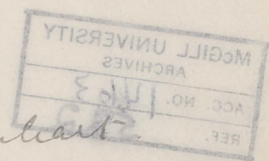

Have you noticed the fact that the sixth dynasty in Egypt apparently ends with a great catastrophe. Mariette Bey in his little history of Egypt emphasizes the fact that for 400 and odd years Egyptian history and civilization suffered an unexplained collapse. May not the sixth dynasty have ended with the flood. It seems to me that only a catastrophe of that kind can explain the facts. Then I do not know whether you may have noticed in Flammarion's Astronomical Myths that the very day of the flood has come down to us in the traditions connected with some ancient funereal festivals.

The Religious Tract Society cannot see their way to allow me to republish the tract on the flood but I shall notice it at length. If you have any other paper beside you which you can spare I shall be very glad to have it for the "King's Own".

I am,

Yours sincerely,

John W. Dawson
