NEW YORK, Feb. 27, '96.

Sir J. W. Dawson,
293 University St., Montreal, Can.

Dear Sir;

Your favor of the 24th inst. has been received. We expect an article from you for the Homiletic Review on the topic suggested. We shall be glad to receive it at as early a day as may be convenient for you. If sent by the first of March we will be able to print it in the April number of the Review; or if sent by the first of April, in the May number of the Review.

We shall also be glad to receive the articles on the topics you mention, namely, "The Record of Creation," and "Early Man."

I do not think that we have published any scientific articles recently on the Deluge, or the questions connected with it. But if I find that we have done so, I will send you copies of the article, as you request.

Very sincerely yours,

D. S. Gregory

Managing Editor.

P.S. Can you send me on the enclosed postal card the address of Professor J. H. Prestwich of England? In editing and shaping the treatment of the geology of the Standard Dictionary I became somewhat familiar with his name and works, but find that I have lost his address. If you can give it you will confer a great favor upon yourself.
