Re Pauline

Mar/96

~~Harro,~~

Midland Co. ex.

25 Feb. 1896

Dear Sir William,

I told the Local Secretaries
of the British Association at
Liverpool some time ago that
you hoped to attend the
meeting next September (16-25),
and they will now be glad to
hear definitely whether you
have arranged to be present,
in order that they may provide
you with a host.

I have promised to be
at Toronto about May 22
and I hope to have the

pleasure of calling on you
a few days before that date.
I intend to leave Liverpool
on May 9 & after spending
a few days at New York
& Boston to visit
Montreal. I shall be
glad to discuss with
you several matters relating
to the Toronto Meeting.

The invitation to members
to visit Montreal will

be left before my (arrived
next Friday. We shall
not be able to furnish
a list of those who will
go to Gornito until
next Spring, when we
receive replies to the
circular issued to members.
We intend in future to
send this circular out
in March instead of in
May; perhaps next year
it would be well to

do this in February -

You have no doubt received
your copy of the Ispovist
Report - The meeting,
although small in point
of numbers as we had
expected, was of high
scientific interest, the
lectural addresses being
decidedly good, & the
attendance of foreigners
above the average

Yours very truly
G. Pittitt
