Dear Sir William

My thanks which have
long been due to you have been
undoubtedly from day to day because
I so confidently expected to call
& make my Adm't, but duties
just prevented me & then my
strength completely gave out
troubled me to realize that
the Doctor is not wrong when
she insists on my taking an
absolute rest.
I am truly grateful to you for

Consenting to be Honorary President
of the Auxiliary which the ladies
of Montreal have kindly started.

Many thanks also for General
Gordon's book which Mr. John
Savage is returning to you.

There are truly interesting original
thoughts in it; one of the great
regrets of my life is not having
met him. &

Will you please say Adieu
for me to Lady Dawson & thank
her for her kind donation to
the Auxiliary.

Believe me

Sincerely yours

Florence E. Bartol

I am on my way to Clifton Springs
where I am to have a complete rest.
