

The friends of the movement may not
assume that no journal or
other communications will present
the energetic defence of the
~~great~~ educational interests of
the English speaking people of
America so far as they are
dependent on me.

I am quite certain that
attempts have been made both public
and private to use these newspaper
attacks as a means of alienating
you the many one of the leading
prominent denominations but I
have too much confidence in the
good sense of those thus appealed
to believe that any such ~~will~~
succeed. On the other hand
no act of my denomination or
sect of a denomination ^{should} ~~should~~ be
allowed ~~with us~~ to stand in
the way of ^{educational} ~~the~~ interests of public
schools
