

Sept 10/96

My dear Sir,

In reply to yours of the 4th
inst I may say that on my
return to Canada it will give
me pleasure to contribute the articles
you mention to Good Words as
their preparator will come in
very suitably with the volume which
I am then to undertake of my
work "Fossil Men" for a new edition,
and in connection with which I am
very desirous to hear the discussions
which I understand will take place
in the subject at the Meeting of the
British Assn in Liverpool next week
and which will bring up some facts
quite certainly known but capable
of very different interpretations.

Since however I shall not be
at home in Canada till about the
15th October and have much to
attend to on my arrival I cannot
promise anything like a member, but
could attend to do there or perhaps
better still in time for your new
volume. The title might be, "What
is entering Remains of Pleistocene Man"
