Dear Sir

I beg to acknowledge and
to gratefully thank you for sending me
through the publisher a copy of your
work "Edwards and Wox" which I am
reading with interest but on account
of my affliction, my affliction of Paralysis
and the anxiety as to meeting the
daily needs of my family, this I find
to get down to study. To be without
tools is to me like a workman without
tools. I have just heard of three books
to be sold second hand, costing 1/- but I
have not 12 pence at my disposal.

I should like to have had your opinion on my tract
"Theory of Evolution" I sent you
Did you know my late friend, Thomas Cooper, lecturer on
Christian Evidences? He wrote a book on Evolution

I am yours truly
Robert Couch
