9th January

My dear Mr. Mac
Accept my best thanks
for your kind note of the 5th
December and for the promised
paper "Science and the Supernatural"
which I shall read with much
interest & profit & on which I
can give to the
Trust Publication for the
Royal Victoria College is

proceeding so well towards
completion and that you are
favourably impressed with the
appearance of this meeting
much, and I trust I may prove
to be a useful laborer in the
cause of Higher Education of
Women. In present & subsisting
position of which in N.Y. &
and in Canada as a whole we
are deeply indebted to you for
that you say of the work of this
Young Women's Christian Society
of N.Y. & to have a record of

apart for his work in the
College, I note and I shall have
every consideration. A letter
of a number of 25 Members
making the request has reached
me and will be sent to you
as early as mail, as just now
it is not clear how I could possibly
do the work before me can
be over that many. I have
found unhelpful assistance in
breaking of my arm and I fear
I am still unable to do much
with the pen, although it is
gaining strength again.
I shall hope soon to have

The pleasure of seeing your
son Patrick and his wife so well
and have no doubt that his
visit to Dublin & Columbia will
materially aid in turning the
wealth more prominently to the
view of the British Public.

I trust you and Lady Dawson
are in the enjoyment of the
greatest measure of health and
well being in regard to every good
and of the season for both in
which my wife earnestly joins
Believe me
my dear friends
Yours affectionately
Wm Pitt Rivers
