

Sir. J. W. Dawson,

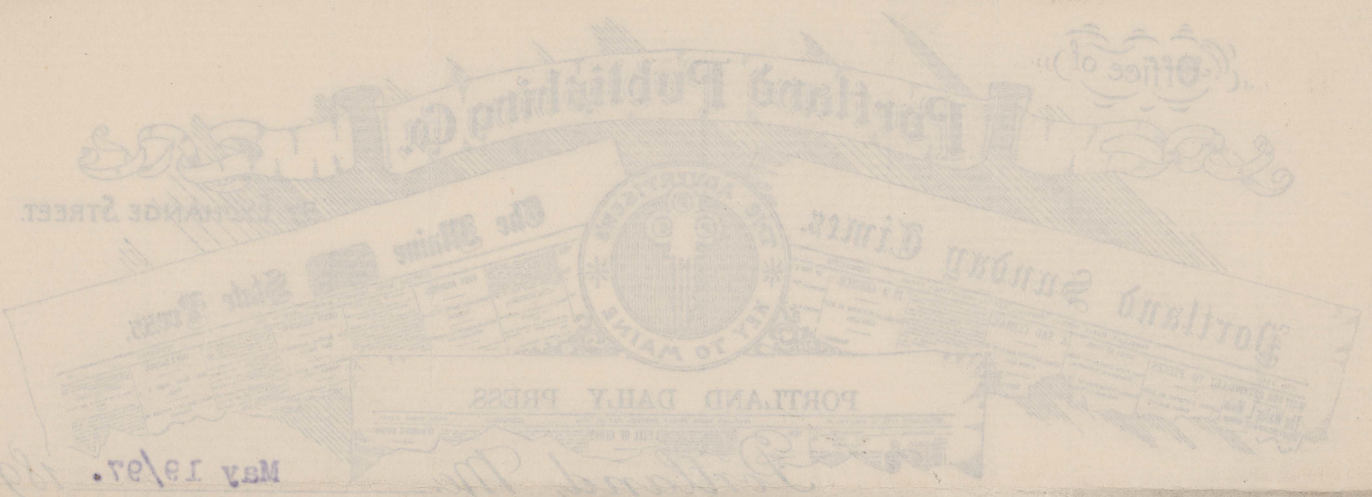

Dear sir:-

I am sending you by this mail a copy of a paper on the Foraminifera of the Marine Clays of Maine which I have recently prepared and the Portland Society of Natural History has published. I have taken the liberty in that paper to refer liberally to the papers you published on the subject of the clays of Maine and Canada, as your investigations were most thorough and what you published is of great value. You will notice that but little has been done on the subject since you published your papers. While of course you take no active interest in the subject now, I thought that possibly my paper might possess at least a small amount of interest and so send it.

Yours very truly

J. S. Morton

May 13/97.

Mr. J. W. Dawson,

Dear Sir:-

*Mr. J. W. Dawson
Portland
May 19/97*

I am sending you by this mail a copy of a paper on the
committee of the Marine Clays of Maine which I have recently prepared
and the Portland Society of Natural History has published. I have taken
the liberty in that paper to refer liberally to the papers you published
on the subject of the clays of Maine and Canada, as your investigations
were most thorough and what you published is of great value. You will
notice that but little has been done on the subject since you published
your papers. While of course you take no active interest in the subject
now, I thought that possibly my paper might possess at least a small amount
of interest and so send it.

Yours very truly

J. W. Dawson
