

293 University St
Montreal.

Sept 24/97

Dear Dr. Buisson,

Since my return
to town I have been
endeavouring to prepare
for printing my paper on
Le pedophobos, which will
add me more to the
fossil series of Nova Scotia;
being a plant very rare
in most other places.
I must work slowly however,
and only at intervals on
pain of sleep if I fatigue
myself too much; and
as the paper is probably

17/1/20
My last on Fossil Plants,
I wish to have it as correct
as possible.

Can you inform
me when it will be
necessary to have it ready
I am also having some
good illustrations prepared
in half-tone from photographs,
a proof of one of which I enclose
There will cost I presume
from \$30 to \$40, and I
shall be glad to know
how much of this and the
Royal Society can afford to
pay. I shall take good care

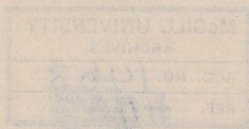

of their accuracy and execution.

Kindly let me know
informed me on these points,
and believe me with all

Kind regards

Yours sincerely

J. M. Dawson
