Dear Sir

Having, as I am at the top of
the Scientific world & when I am
authoritative, I want to ask if you
kindly give me the name of a book if
you know one, that tells us what
date, what geological & kind of facts
can be relied on, as established in
opinion of the whole Scientific world
the theory of Evolution is so taking
minds, & and in all lives we
are met with such assertions as "If
all these facts are as admitted, the
possibility of Malay mites, Heterotiles
Lam. Evidence specimens crossing etc
etc we have long since passed into
the region of conjecture, and are
all based by such Saharajant
& Mantourg's assertions I do wish
