

Collegiate Institute,
London, Ont.

Feb 10/98

Dear Sir William:

I am extremely sorry
to learn that you are far from strong, and
in poor health. The London U.C. Graduates
send with me their sympathy and hope
you will be well again very soon.

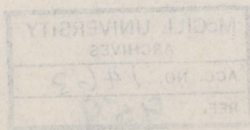

I was sorry that I did
not receive the appointment at U.C. Grad,
but "Every thing comes to him who waits."

There is a good vacancy in the
Ontario Ag. Coll. Guelph to be filled.
The Chair is Biology & Zoology previously
held by Prof. Paulsen who died last
week. I know your previous
help on my behalf, and I hesitate
now that you are sick, to put

You to any extra exertion, but if
possible I would get you to
send a testimonial on my behalf
to the Hon. John Dryden, Minister of
Agriculture, Toronto.

Hoping, dear Sir William, that
your illness is but temporary
I remain

Yours affectly
W. Lockhead
