12, KNOWLE ROAD, BRIXTON,

LONDON, April 6th 1899.

Dear Sir William Dawson,

I have the honour to inform you that you have been elected an Honorary Fellow of the Society of Biological Chemistry in recognition of your far-reaching scientific researches.

Private!

I should very much like to be a Member (Hon.) of one of the Scientific Societies in Canada, or one belonging to the McGill University. Do you think this possible? I have published about 40 papers in the "Comptes Rendus de l'Académie des Sciences de Paris"; and many in the "Proceedings of the Royal Society of London," "Proceedings Royal Society of Edinburgh," "Journal Chemical Society of London," "Bulletins de l'Académie royale de Belgique," "Quarterly Journal of Geological Society of London" (one paper in 1886), etc. Altogether, I have published 100 papers.

I am an Honorary Member of the Medical & Surgical Society of Rio Janeiro, an Honorary Member of the Pharmaceutical Society of the S. West of France (Toulouse), and am a Knight of several orders.

Yours faithfully,
A. B. Griffiths.
