

Pictou Academy, N.S.

April 19th, 1899

Dr. Dawson,

Dear Sir: In your
Acadian Geology (page 431)
you have briefly described
beds of sandstone "in the
neighbourhood of the
town of Pictou"; contain-
ing *Stemmergia* and
well preserved erect
calamites. With other
students of Pictou
Academy I have de-
sired to visit the lo-
cality but have not

Dear Sir

For information
at present to look up
old notes. So far
as remember the locality
was ~~at~~ in cliff
on S side of bank in-
between below Pullman
(former Dickson's) Mill.
The cliff may be ^{very} fine
for level ^{at} ^{VI}

been able, by inquiry
or otherwise, to find it.
Will you kindly do
me the favour of in-
forming me as to
where the locality
is. I am

Yours truly

John Mc Dougall

Mr. Dargall,
April 99
re Calamites.
