McGILL UNIVERSITY ARCHIVES
ACC. NO. 2211/62
REF. 21

Having in conjunction  
with some friends in England  
made a provisional purchase  
of an interest in the Phosphate lands  
of Mullu & Henshaw in the township  
of Templeton & Patton, it is neces-  
sary for us to make arrangements  
to have them examined & reported  
upon by a competent scientific  
man. It has occurred to us to ask  
whether you would undertake  
to do so & if so when & on what  
terms

The property comprises about 4700

acres & is about 12 miles  
from a station on the L M & C  
Railway.
