Halifax. Apr 2. 6

Principal Dawson

Dear Sir

If you can consider the
accompanying frivolous lines in any
way adapted to amuse the readers
of your Montreal Geo Journal, the
Canad. Nat. would you kindly send
them to the Editor with whom I have not
the pleasure of an acquaintance -

I enclose a letter from Plummer in
answer to my request that he would
send me a copy of a prospectus said
to have been issued by parties desiring
to work iron veins on the E. River -

You can hand it to Mr Hamilton
when you next see him as you
will be able to explain what the

project is worth - In a late letter
I think I said I considered it little
more than an attempt to extort
money from your Syndicate -

Believe me yours truly
J. Gilpin

P.S. If you have your remarks on
the E. R. in strata, which I saw
noticed in business, sent presumably
by you, I should be glad to see
known by a copy.
