

Hill

Joggins Mines, July 1st

My dear Sir,

I am this evening in receipt of your favor of 28th ult. and am struck by your visit to Cambourne with the warmest gratifications.

I much regret that I am not yet in a position to tender the wish of hospitality as my family is still in Cape Breton, and the

Manager's honor is ~~yet~~ I
believe growing in the world.
I am however boarding in
a reasonably comfortable
quarters at William Starkey
where Mr. Ralston put up
for some months and then
will be removed here at
your disposal during your
stay. It is quite near
McLain's Brook a very
convenient point to reach

The above was Div. 4 of
Sir W. E. Logan's arrange-
ment. I will make all
necessary arrangements
to blast down as much
rock as you may wish &
will obtain all fossils now
collected till your arrival
I have several fossils to
which I can attach nothing
but the mark "?" as I can
make nothing of them, and
from the absence of anything
like tissue or enamel in
these fragments for Mr. Logan.
