

From J. Milne. Imperial
College of Engineering
Tokio Japan

To Mr Dawson M.S. by
Mail

My dear Sir

I beg to thank you
for a copy of your review
in Wallace's Island Life
which was extremely
interesting.

I am anxious to communicate
with J. Foster Torrance Esq

of Montreal. Ten or
twelve years ago he
was a student under
you in the Mc'Gill
College. Subsequently
he went to Freiburg
where I met him.

If you could forward
the enclosed letter to
him I should regard
it as a great favour.
At the end of June

I leave Japan in 6
months leave to visit
England. I shall
call for letters at
San Francisco.

S. Foster & Co

28 Calafornia Street
on my way to Europe
may possibly pass through
Niagara & Montreal
Excuse me for thus
troubling you
Yours truly
J. Miller

ellulose
a copy

P.S. I send you two
of Vol II of
~~papers from~~ The

Transactions of the
Seismological Society
of Japan

If you can send me
any thing in return

connected with Seismology

I shall be much obliged
I wish especially to know
something about Earthquake
instruments.
