

At a meeting of the Editing Committee of the Canadian Naturalist, held Tuesday evening Dec^r 13th, the following resolutions were unanimously adopted.

"Whereas the Editing Committee of the Naturalist are informed by the Acting Editor that he has had, for some time, the matter for the July number in the hands of the printer, & cannot get the number out, & that he has also ready the matter for the October number, which has not been begun; the Committee desire to state their conviction that such delays must be ruinous to the Journal both by preventing authors giving in their contributions & by causing the interest of subscribers to flag: that this result will be due, not to the Committee but to delays on the part of the printer.

That the Acting Editor be requested to communicate this resolution to the publishers, with the view, if possible, of having the July & October numbers issued before the close of the year, & to secure punctuality for the future."
