Swine has been known to  
green wood & purple like  
Swine? with Swine?  
Swine has Swine Swine Swine

It would seem that  
the Anglin Semer is  
the largest tree at  
A. from there but it  
is very vertical and of  
any other Semer, than  
my therefore be a fault  
between it and the one  
by quantity which is  
like the very hard variety  
of an intense apper  
ray state and then  
red state - all very  
parallel to Mike

It is to be ob-  
served that at 3 P.M.  
the relations are ap-  
parently the same  
by which the

Just that, I am sure  
followed, an immense  
number of red &  
grey states with much  
clay - and at  
the ridge immediately  
on a low valley  
is an immense  
quartzite like  
that at the shore  
but whether a red  
block of the same or  
quartzite does not  
appear.

The Cuylerville  
is shown by waves  
of deposition and

is a very common  
rock - many made  
up of thin & quartz  
beds. In some  
then were present  
but certainly all sorts  
of other rocks  
seen to have been  
of many that may  
be seen - The  
old pebbles & boulders  
are many of them  
very rounded - Besides  
the soft fossils there  
there is a dark  
band - also a  
compact run for  
length of a few  
feet - also a

Flag rock with  
There are also  
a number of  
scattered like  
Wormholes like  
Holes, <sup>also a rock with small green</sup> all these  
must have belonged  
to the formation  
up to over the  
Cingulacole, The  
Cement is a sandy  
colored paste - but  
there is hardly any  
little cement -  
The whole mass  
being big pebbles  
and boulders &

original payments  
In the capture of
