Dear Papa

I have not time to write this week, as we have had lessons for today. How does mama expect me to take so much out-door exercise when our lessons are so long? Of course it doesn't take Taylor so long, & Greenshield's has a tutor & none of the other boys learn theirs or if they do they use keys. I will join an abstract of last term's reports (ending 15 April).

	Taylor	Dawson
Latin	4	2
Greek	1	3
English	3	2
French	2	4
History	1	1
Geography	2	1
Arithmetic	2	1
Algebra	1	2
Geometry	2	1
Natural Philosophy	4	1
Religious studies (= Penn's Introduction)	3	4

1891  
This report is owing to the result  
of the examinations. Taylor however  
is about 1000 places ahead of me  
in class work. If I get any  
prizes, is there any thing book  
you would recommend me to get,  
or would you leave it to my own  
discretion? It is rather late  
to write about this now.

Tell George I will try to ~~get~~  
take the measure of the dark  
glass in time for this mail but  
if not I will send it next  
time, hoping that you will  
excuse this scribble.

I remain your affectionate son

William

P.S. Mr. Barnum came back  
yesterday, I enclose the  
diameter of the dark glass for  
George. ~~It just goes into it~~  
It just exactly fits the diameter  
of the dark & glass. It fits  
the inside diameter.
