

imagines could more easily have
been preserved where the tanks
of a lake may for a long time
during the dry season be baked
in the sun. Gaurid fishes.

Magnesian limestone, & of
course Rock Salt & Sulphur.

With love

Believe me

Your affectionate son

George M. Dawson

P.S. Nothing is settled about
the move to S. Kensington as yet.
It is only proposed. I believe
Sir R. Munchison is opposed to
it. M.D.

Dr. M. J. [unclear]

was very low
been preserved where the banks
of a lake dry for a long time
during the dry season he takes
in the sun. [unclear]
