REF. 89

Principal Dawson
McGill College
Montreal.

Dr. Torrell did come on, Memphramagog House
in our train & I had quite a Newport
long talk with him. He goes straight through to
Boston this evening. I am beginning to find out
that my knowledge greatly surpasses my
experience. When we got into Vermont and began
to wind about like an aggravated serpent, among
the mountains, I thought that, although I
had often read, heard & talked about a Billy or
Mountainous country, I had never seen one
before. We have a very pretty view of the Lake from
here. The Railway Station & Wharf for the Steamers are
within 100 yds. of the Hotel. R.D.
