Camp on 7 Poirer's Collee
near Long. 111°

Dear Father,

I hope to cross the trail
from MacLeod to St Walsh tomorrow
morning, on way south from
Belly River to Milk River &c, &
will think of working west again,
& may be within reaching distance
of St MacLeod in about two weeks.
I have accomplished the descent
of the Belly R, with some interesting
geol. results. All well. This
is only a notice, which I shall

Leave on a stock beside the
 trail with a request to any
 posses to take to Walsh or
 MacLeod & Mowl, so that
 the Charms are it - they will
 reach you. Weather warm by day.
 Mosquitoes very bad, stampeded
 Save your horses but with - so
 effectively that it took all way
 to find them again.

Love to all

Sam Applegate San
