THE ADDRESS ONLY TO BE WRITTEN ON THIS SIDE.

To Dr. Dawson,

McGill College

Montreal, P.Q.

British American Bank Note Co. Montreal

Monday, 12-12-81.

I was waked up on Saturday night to hear of the arrival of the "Parisian". It was about half-past eleven, I think.

I got up as soon as it was light yesterday morning, but found that Kunkine had already left, although almost all the other passengers' boots were still at their state-room doors.

I made the round of the various hotels, and came to the conclusion he must have gone through on the "special." I am disappointed, & especially sorry that he should waste his Sunday in that way; although I have a lingering hope that he may yet turn up.
