

*Large*  
GEOLOGICAL & NATURAL HISTORY SURVEY.

Alfred R. C. Selwyn L.L.D., F.R.S., Director.

MUSEUM & OFFICE, SUSSEX ST OTTAWA.

*James Jones* 1881  
Monday.

Dear Father

Nothing in particular  
has been done in the fields  
since Bellings. Nothing  
published by the Survey.  
Whatever mentioned some  
papers by Dall, Lundstrom  
& meek on Monomerella,  
a Trimerella, but I don't  
know if they interest you.  
I have not got into my

rooms here yet but hope  
to in a day or two. The  
weather is not so sunny in  
the extreme. I had a letter  
from William yesterday  
giving his address, which  
it seems, is the Province  
Building Halifax.

Your affectionate son  
Genes
