March 28. 1882

My dear Father,

I have recd. a note
from Mr Blankett this morn.
asking for copy of plan of
E. River Iron locations
mentioned in my report on
there. The report was I
believe printed but I have no
copy & forget what plan was
referred to. If you have
a copy of the report should be
glad to get one. The plans
submitted I may have are

in the locked drawer of my
 bureau, the key of which
 is in a large envelope in
 the locked drawer of my
 desk table of which I enclose
 the key. I am sorry I have
 to trouble you in the matter,
 but should be glad to have
 the papers connected with the
 iron property sent up &
 return. I think all the
 sketches & the W's report are
 rolled up together. If there
 are any other plans, known
 which you know of which
 would be useful you might

Send them at the same
time.

Yours
Sease

P.S. There were some notes
also on Mr Giles' property
up near Moundsch Lake. Do
not mistake these for those
I want.

Tell Mother that the books
arrived safely this week.
