

Flat Creek

June 11th.

Dear Father,

About a week I think has passed since I had last an opportunity of writing, although so many little things have happened and I have had so much work on hand, that it seems more like a month. Letters received from Brother & Eva bring glowing accounts of Ottawa experiences, and pleasures enjoyed. I trust you also got not a little satisfaction out of your brief stay, and that, having got through with the two expeditions of the season, you will now find more leisure to devote to your favourite work.

The weather here has been warm of late but pleasant, work abundant and difficult to overtake, and other things as before. Anna & Eva. enclose lists of questions but they look too formidable to attempt to satisfy, especially when they begin thus, "will your appointment be as remunerative as we have been told". As regards winter work, I think construction will probably close here in November when I shall likely get a chance to rush off

2)

somewhere and try and regain some
manners & civilization.

With very kind regards to all

Your affec. son
Franklin
