

Serge

GEOLOGICAL & NATURAL HISTORY SURVEY.
Alfred R. C. Selwyn, L.L.D., F.R.S., Director.
MUSEUM & OFFICE, SUSSEX ST OTTAWA.

March 1 1883

Dear Foster

I send down the
proof received from Mr Brown
It seems all right, & I
think the alcohol might stand.
The prohibition is not likely to
last forever & the present
circular is no place to go
into the explanation of
other chemical preservative
solutions. With regard to the
Canadian Pacific railway
Bygones & clause the

Suggestion here was that
this should in a certain
number of the circulars
be substituted for H B Camp, 3
making the appeal a special
one in such case. However, 2
this perhaps does not matter.

I enclose also a letter
written from within Camp.

Your obedient son
Serge
