

RANKINE DAWSON, M. A.

M. D., C. M.; L. R. C. P. LONDON, ENG.

PHYSICIAN AND SURGEON.

Nov/83

Wallbeav Place

Nov - 9<sup>th</sup> 83.

My dear Father,

Your letters and Mother's, received here from time to time have kept us fully informed of your movements up to date of last news.

I am very glad that your trip has proved so far enjoyable and satisfactory, but hope that for the future it may be somewhat more restful and less wearing than in the past.

I purpose sailing for S. S. Dominion next week, as I dare say some of your numerous correspondents have already informed you, with the intention

2) of spending the winter in  
London in pursuance of  
medical studies in order if  
possible to get some practical  
idea of practice.

If your numerous friends &  
entertainers detain you in  
England until the end of the  
month I shall hope to have the  
pleasure of seeing all again,  
before you proceed further  
east.

Your affectionate Son  
J. Parkin
