

Paris Dec 7/83

My dear Mr Colver

I enclose the letters  
for your private information, in case  
any proposals such as those referred  
to should come from Canada

We must of course find  
separate excursions as far as possible  
for those who must leave Paris  
after the meeting. But I feel un-  
willing it would not do to  
detract in any way from the  
main excursion after:

I have written to Dr  
Stoddard & Dr Brewster in this  
sense, and have told them  
that only a very few will wish  
to go individually before the meeting

As I have suggested to Dr Stoddard  
that he should at least  
meet the circumstances  
at Prince Albert's landing

Yours  
Stoddard

and so far as I am personally concerned  
I should grudge a summer broken up or  
lost in buying round a popular scientific  
meeting. If I could be of any real service it  
might be in the west, & if I go to the Rockies  
again I might be able to arrange to leave  
some by rail as far as Winnipeg &  
Newbury. However I will arrange to arrange  
all this.

I am, affectionately,  
Yours

SMD  
Clayes
