

GMD

16 December 1855.

My dear Father,

I have yours
with printed numbers
referring to William, & if
I get a chance will
endeavour to use them.
Would you at your
convenience send me
about $\frac{2}{3}$ of the remaining
bundle of copies you

paper on the boulder
Clay. The bundle is
on the table in my room
or was there when I left.
I hope of course to be
down next week for
Christmas. So far as
I know nothing is definitely
arranged about exhibition.
Dr Selwyn says he would
like me to go very well,
but does not know how
to arrange office matters
here. I think the chances

are that besides Dr Selwyn
 Prof. Maccom & Mr Willmott
 will go to exhibition with
 possibly one or two more
 who may have sufficient
 political influence to shove
 themselves in whether wanted
 or not. So far as I
 am concerned I do not
 particularly care what
 arrangements are made,
 I am in work to go to
 the exhibition. It would
 wear out a very hard

work a worry & worry to
 be made out of it in
 any point of view.. I am
 much more comfortable here
 in every respect than I would
 be in Jordan & have no
 objection to serve by going
 there.

With love to all

Yours

George
