My dear Father,

I got here safely at noon.

The Saranac paper, which I have read over
is returned with this. I have corrected one
or two small parts with a blue pencil, &
winked one or two more with red. There
had an names which I could not quite
read ~~at~~. *Juglans Schimperii* I observe
is given for in Green River Group. This is
in distinct zone quite above the Saranac
according to geologists who have examined it.
(See Clarence King's large vol. *Systematic Zoology*
p 574 for table showing relations.) There is of
course no insuperable objection to its being
assigned to Saranac & some proper

I thought perhaps you experienced some feeling
my reasons for saying that it did not
seem to me worth while for William to
apply for the Forests office. It seems to me
from the salary offered that the work to get
two men who has already made a name
for himself such as Keiser, Shauls or Fleming.
or such salary would be offered to a young
engineer or workman if they wanted one.
This with the certainty of well backed local
work seems to me to place it out of
consideration
