Ottawa  
18 December 86

My dear father,

I sent to you  
the other day a copy of  
the Supplementary list of  
publications of the Geol.  
Survey, which may prove  
useful for reference. I  
will also have sent a couple  
of copies of the various  
geological maps of which  
we spoke.

I hope you will be  
able to get through all your  
business without being so

overloaded with work  
 as you seemed to be when  
 I was last in Montreal,  
 I think the advice you  
 gave me & which I shall  
 try as far as I can to  
 follow would apply equally  
 to yourself. At one time  
 I felt quite in despair  
 about work I could not  
 overtake, but latterly I have  
 become quite reconciled to  
 let it go if I cannot  
 conveniently do it. I wish  
 you only knew how far  
 behind I am in regard  
 to report on work of 85 etc

A few letters it  
appears to matter when  
you get thoroughly well  
used to it.

I have not yet heard  
anything definite about  
the time Selwyn is to  
return, but Maccom  
was to sail today. When  
Dr S. gets back I think  
I shall take a few  
days holiday & visit  
you in Montreal at  
somewhat greater length

4

them usual

Yours

Georg
