Dear Father

It was my own omission
not to have mentioned Box
last evening. He did call,
I gave him the addresses of
Brown & Wallace of the C.P.R.
& J.F.R. (Mechanical Dept.)
I saw him also yesterday, &
he tells me Peterson has written
to the Loco. Works Princeton for
him. I think Mech. work
will suit him best.

We have asked him to
dinner with us this evening

to relieve you of the obligation
of doing so, ~~as~~ as well as
for his own sake. He has
found out the J. M. C. A. and
will not be so lonely here.

His present address is
10 Latour St. I enclose
the letter.

Yours
William
