

Phredos

Dear Father,

I am extremely
sorry you seem to dis-
agree with me about the
advisability of going to
Toronto; it has quite
unset my ^{confidence in my} own reasons
in the matter. It seems
to me a serious step to
leave Mill, & I wd hardly
like to do so without 1st
seeing the place & those
connected with it. I do

not all what possible see
learn it could do; on be
the contrary I think it
would strengthen Major H's for
hands in the matter, and it
be altogether safer for as
myself & my own interest.
I have now made all my
arrangements to go & have
a pass, &c. & have telegraphed
Mr. Howland; & I cannot A
feel that it is anything I
but the best course. You it,
had how important the to
Governor always consider K

seems an applicant to
be.

I feel very badly about
it going when you think
it inadvisable I can
assure you -

Yours affect^l son,

William -

I feel if I apply before
looking into the situation
I shall have to accept
it, in any case, & throw
up my position here
& think it best to be
careful before deciding
