Alfred R. C. Selwyn, C.M.G., L.L.D., F.R.S., Director.  
MUSEUM AND OFFICE, SUSSEX ST., OTTAWA.

8 June 1888

My dear Letter,

After writing to you about Spencer's paper,  
it occurred to me that we had better communicate with  
Barnes & learn exactly how the paper stood as it  
differed from the others which had been rolled out in  
having been actually printed & not being given in  
title. In answer I was told that Mr Barnes has  
written that the paper was printed & printed a though  
not technically in time was in order as much as  
most others. In consequence of this Mr W., for the  
Committee of Section IV is writing to Spencer to ask  
him if he can give the address to effect of work  
to his paper in time for publication & printing Committee  
in which case he may also have in all right.  
Conflicts now, however, would that he had printed  
elsewhere one or more papers which he had previously  
submitted to the Society, and thereby the publication of the  
Society. I think it unfair for you to have taken  
in consequence of the fact that you had introduced the  
paper  
Yours truly  
James Giff

June 1888

The enclosed paper contains a list of the specimens which I have been able to examine. I have also written a few lines on the subject of the same.
