C. P. Ry. Fran R.

My dear Father,

I am just on my way back to my Camp at Shuswap, having spent a few days examining rocks along railway between Kamloops & Yale in Company with William & Bernard who turned up very opportunely. I had the plan to examine these sections some time during the summer & so managed to do it under favorable auspices. Hope that you have quite

received from the unfortunate
 accident you met with at
 Metes'. I have yet heard nothing
 later than Wether's answer to
 my telegram inquiring over a
 week ago, but I was extremely
 glad to know that it was
 not more serious.

I return Prof. Huxley's letter
 as you ask I am much
 pleased that he should write
 as he does.

I need not attempt to give you
 any news as both W & B are
 on this train going East & you
 will hear all details from
 them your affectionate son
 George
