

George S. Murray
GEOLOGICAL & NATURAL HISTORY SURVEY,
Alfred R. C. Selwyn, C.M.G., L.L.D., F.R.S., Director.

MUSEUM AND OFFICE, SUSSEX ST., OTTAWA.

6 November 1888

My dear Father,

On Enquiry about
the works of 1866 being atlas
& accompanying report of '63, I
find that there are plenty of
the bound copies & atlas,
a few without covers & a
number of the works sections
etc separately. The atlas is
priced in Cobden at \$2.50
The general work separately
at \$1.50 sections smaller
works etc at about 25¢ each.
The prices seem all pretty high,

but I think they were put in
in order to keep the stock of
old publications from running
out.

I do not remember how many
wops you said you wanted or
if any wop or sections as
well as what they were for.
I might be able to arrange the
matter in some way if I knew.

Respecting P.S. matter, I should of
course not take anyone to be
pressed to forward Candidates.
I could if you think worth
while look up some more names
of persons not previously
known to me, or scarcely so,
but with whom I feel had
correspondence of some kind.
Sir A. Ramsay would have
been pleased to put his name

but I fear is rather
laid on the shelf weatolly
from what I have heard.

Dr Selwyn would also be
doubt do so & as head
of this department it might
have more weight though I extract
that weavers of English Survey
had not Gukis names on
their list; Porphy became
not Candida stipitata &
so have.

I notice attacks of Murray & Co
in week, but it seems to me
that such defect their own ends
& were but quietly ignored.

Friend Murray evidently keeps
very carefully under cover, so
that his own side may be safe,

4
as it is scarcely worth while
entering into newspaper arguments.

Save time when you think you
should be glad to have a copy
of rolls of Nat. Hist. &c. if
you can only get it. I want
to send it to Victoria for the
purpose of guiding them there in
the matter of forming a similar
Society

Yours
George
