Dear Father,

I enclose a clipping from a local paper that caught my eye, & which you may perhaps think worth following up as a reference, as you have had occasion to refer to the matter in connect<sup>n</sup> with the Age of Man.

I met Mr. Moody in Vancouver. He referred to your new book on "Syria", and I would like to get a copy for him. If you would kindly send him a copy, I will be chargeable for the amount. His address is: -

"D. L. Moody, Northfield, Connecticut."

I am getting on very well indeed, & find this trip very interesting. The weather has been rather better than I expected altho I cannot say much for it.

Your affectionate son,

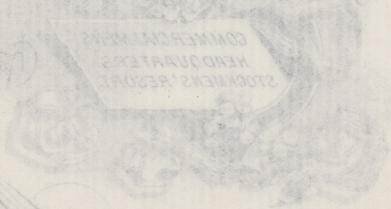

William.
