

~~Little - Melis~~
Mamma Friday Log
Chuffy

Dearest William

I have to thank you
for three letters - two received last
night & one tonight. I am very
glad to know that you had such
a pleasant time at Toronto, also
that the weather was good as
I feared it would be exhaustingly
warm. The weather here continues
delightful, still tonight - it threatens
change & many will be glad to see
some rain as water is really hard
to get. Most of the Melis families have
left - Prof. Bawley & family having gone

today - Anna² proposes leaving
on Wednesday & I intend to
accompany Will & Florence leaving
here on Friday the 13th - Wh: will
just give me time to get the Cottage
nicely cleaned, to pack away groceries
&c without undue fatigue.

Will says that he cannot give any
estimate of what it wd. cost to tunnel
under the railway crossing unless
he went there & took some measurements
wh: he is really too busy to do. I will
suggest our leaving early on Friday
& stopping a little while at the crossing
on our way to the station.

I have not seen Eric yet to give him your
present but will do so in the morn. I hope
the singing Chieftains are worth the money.
you must have liked them to get two.
Many thanks for your kindness. Give my

love to Eva I hope she is getting on comfortably
with the two new maids. Clara waits admirably well
on me & I am enjoying the quiet immensely. I shall
continue to get the Gayell & Witnesses - you had better
stop them before I return. I return the invitations from
Mrs Redpath received tonight - they ought to be in time
for you & Eva to make use of them if so inclined.

With all love to you both I renewed thanks for
letters & papers. I am as ever

your affectionate

Maryam
