My dear Father,
Your kind note
of yesterday, in which
you suggest that I should
go for a few days to
Montreal, reached me
this morning. I think
however, that it will be
better for me not to go during
this week. I have been
down at my office every
day since Monday, but
have been keeping very short

hours & have practically
 done nothing except answers
 a few letters & such like.
 I am now getting stronger
 again & I should suppose
 becoming very satisfactorily.

If you have the copy which
 you sent before of the
 Certificate which Prof.
 Bowney made out for
 me as Royal Soc.
 Question, I wish you
 would send it to me.
 I should like to look over.

3
it again. I think I returned the
printed Certificate to you at the time
you wrote to Bonney suggesting some
additions which the Rules of the Society
did not admit to be made

Yours
George

P.S. About your note on ferns from
Hastings. - I should be much surprised
if the horizon was anything nearly
as low as that of Nanaimo coals.
Of course species of plants may
have carried on through into Laramie
or whatever the beds are
Gus
