GEOLOGICAL & NATURAL HISTORY SURVEY.

Alfred R. C. Selwyn, C.M.G., LL.D., F.R.S., Director.

MUSEUM AND OFFICE, SUSSEX STREET, OTTAWA.

Oct. 2 1890

Camp No. Vernon.

My dear Father,

I enclose yours of Sep. 12
& 19th, enclosing article by Rankin
& paper by Dana respectively. Both
are returned herewith. R's article
seems well written & should interest
those who don't know the country.
As to Dana's paper, I find that it
scarcely touches on mine at all &
that the fault he is working at are
quite different from mine. I think it
well therefore to let Brooke be
alluded to it, but leave my paper as
used in way. I am glad to see
that he recognizes the good work done
by McCormell. There is no telegraph
here so that I can only write on this
subject.

I am now working my way
back to Newloops & if the weather
holds good should be there about
the 70th. Possibly some odd jobs may
then occupy a week or ten days before
I shall be able to leave for the East.

Yours

George

P.S. I have received & read proof
yell by P.S. paper & of the 4 small
maps. Proof of the maps of Old Cæbe
Creek has not yet reached. I write
Mr Jay about it, but have not yet
had time to receive a reply from
him. I trust Volney has given
away with this map
