My dear Foster,

Herewith I return the proof, having found very little to correct in it. A few corrections are mostly wanted in pencil. There is some want of uniformity in words of referring to his publications. I have wanted what I saw, but others may have escaped me.

I suppose you will order some extra copies for yourself. Dr. Selwyn thinks it would be well to have say a couple of hundred for the Survey which we would pay for. This has generally been done with our White's Palaeont. papers in Trans. R.S.C. & it is curious to have extras which refer to specimens in the Museum.

Yours
Selwyn.
