

GEOLOGICAL SURVEY OF CANADA,
George M. Dawson, C.M.G., LL.D., F.R.S.,

DEPUTY HEAD AND DIRECTOR,

MUSEUM AND OFFICES, SUSSEX STREET, OTTAWA.

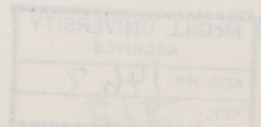

Nov 13 1896

My dear Foster,

Yours of yesterday received. —

I cannot help doubting the foraminiferal
nature of the bodies from Elk River from
my remembrance of the Slide formerly made.
I think it showed numerous concentric layers
of radiating lines — silicious with Cole.
layers & looking like concretions. The
Slide seems to be lost, but if Edwards
has time he might make another at my
expense

Yours
George
