Chap 147

Aug 10 1897

My dear Father,

Yours of Aug 6th  
with enclosure for Prof.  
Miers reached me  
yesterday. I have sent it  
on to Prof. Miers, to  
Toronto. He was not here  
there yet, having just went  
for a trip before the meeting,  
but he will get it the  
moment he returns.  
I do not see why the

paper itself should not be  
 read — There will probably  
 be plenty of time & it  
 would be doubt interest  
 many. The paper or a copy  
 of it should reach the  
 Recorder or Secretary of  
 the Section before the meeting.  
 The abstract has gone in  
 at any rate.

I quite concur in the propriety  
 of your decision not to  
 attend the meeting. It would  
 I think be very unwise  
 under the circumstances.

Yours  
 G. C. C.
